

Concerning charts illustrative of California taxation.

CALIFORNIA STATE CHAMBER OF COMMERCE

San Francisco,

January 17, 1936.

Members, California Medical Association:

In an effort to bring home to all of the people of the State the alarming condition resulting from the growing cost of government, the State Chamber of Commerce is issuing a series of simple charts, such as the attached, which are attracting widespread attention.

This is part of a campaign for general public education, and the story told by each of these charts cannot be too strongly stressed. We want to ask the coöperation of your publication in reprinting as many of these charts as you can.

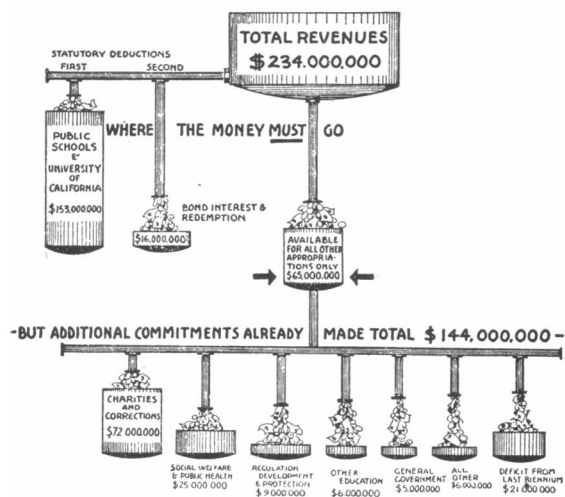

We feel that everyone, no matter how specialized his interests, should be made to realize the meaning of the tax situation as revealed by these charts, each of which is based upon up-to-date and accurate information.

Very truly yours,

W. H. SLOANE, General Manager.

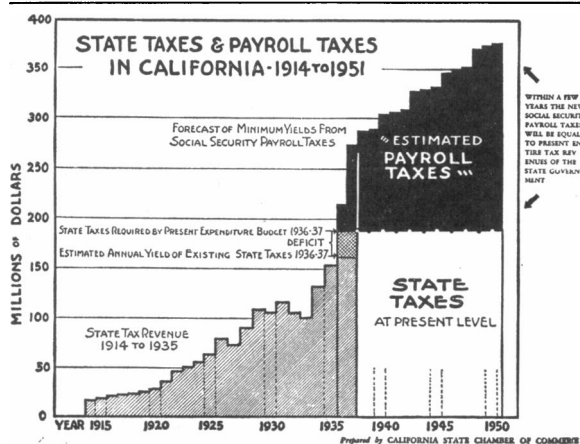

The table and charts which came with the above letter, and which have an indirect relationship to medical economics, follow:

THE STATE'S GENERAL FUND REVENUES AND OBLIGATIONS 1935-37 BIENNIUM

DEFICIT OUTLOOK, JUNE, 1937-79 MILLION DOLLARS
